

Explanation in reference to the objections raised by your good office:

1. Firstly we have applied for the extension for 1 year (1/1/2020 to 1/1/2021), but at that time it was directed by your good office that we can get the extension till 16/09/2020 as our building plans are valid till 16/9/2020.
2. Date of first approval of building plans is corrected and Building plans of our project is valid till 16.09.2020 which is 1 year from the date of issue of letter dated 16.09.2019 and the same is clearly depict on sanctioned maps. (Letter & Maps uploaded).
3. Further we want to update land and development cost of our project, however on RERA portal the tab "Project Modification" is not visible and thus we are unable to update the same. We have also raised our issue under tab IT service request. (Screenshot for same is enclosed herewith)

Once the said technical issue will resolved, we shall update our project cost and subsequently submit the revised Form R2 and R3.
